Problem 1: Knight is at level 4 and pick up Excalipoor. The next event, the knight meet Odin, then after 3 times winning Shaman thanks to Odin, the level increased to 6, 8, 10 respectively. The knight meet Bowser and the knight will win for level 10, or lose for Excalipoor sword?

➔ Losing because of a fake sword.

Problem 2: Using lightwing will lose Odin's support. Odin only supports the next 3 events (i+1, i+2, i+3)

Problem 3: After meeting the Princess Guinevere (20), while going back and obtain the magical wings of lightwing (21), the knight also flies to Koopa and successfully rescues the the princess.

Problem 4: Arthur always win and behaved like an Author always win too.

Problem 5: Shaman and Vajsh will skip fighting with a knight if the knight is being turned into a tiny or frog. Even if the knight have Odin's support.

Problem 6: Even if you use phoenixdown in the abyss or when you meet Bowser, you also will die.

Problem 7: " the knight must face the events directly to test encouragement for solving the tiny curse ". Assuming the input is:

900 1 0 0 0

1 6 21 2 1 2 1 2 2

In the 2nd event, the knight with level <lvO, so he will lose Shaman and become tiny . If the next events happen like that, then the knight would return to normal at the 8th.
